

Thermo Scientific Niton XRF Analyzers

*Rent to Buy...
Rent to Try!*

XRF Rental –

Niton XL2

Niton XL3

Niton XL3 GOLDD Series

Niton XLp 300

Built for the Way You Work

No matter which of our handheld analyzers you choose, our value-leading Niton® XL2 Series, feature-rich Niton XL3 Series, performance-leading Niton XL3 GOLDD™, or the industry standard for lead paint inspection, the Niton XLp 300, you'll get:

- **Fast, nondestructive analysis** – instantaneous results
- **High throughput** – a more comprehensive testing program
- **Ruggedized, sealed construction** – purpose built to withstand harsh environments
- **Simple point-and-shoot operation** – operated easily by nontechnical personnel

What's more, we are happy to provide training on the analyzer at no cost to you.

Over 20,000 Thermo Scientific Niton XRF analyzers can be found in more than 75 countries on six continents.

It's Elemental

Operating under budgetary constraints? Have a one-time project? Not sure whether to purchase? Consider renting. By taking advantage of our convenient rental program, you can experience for yourself how our award-winning Thermo Scientific Niton x-ray fluorescence (XRF) analyzers can help increase your productivity while moderating costs.

Thermo Scientific Niton XRF Analyzers Try It...Buy It!

You can rent by the week or the month. Either way, you will be building equity with the ability to apply up to 100% of all rental fees toward the direct purchase of an instrument with our rent-to-own option.

Month	Credit Toward Purchase*
1	100%
2	100%
3-6	85%
6+	70%
Weekly	100%

** Rental invoices must be paid in full to receive any credit toward the purchase of a new instrument.*

Solutions in the Palm of Your Hand

When it comes to XRF-based analysis, our analyzers have set the worldwide standard for responding directly to customer needs. They deliver fast, accurate, elemental analysis to a growing list of applications, including:

- Scrap metal recycling
- Toys and consumer goods/RoHS testing
- Manufacturing QA/QC
- Mining/petroleum exploration and production
- Positive material identification (PMI)
- Environmental analysis
